April- Sexual Assault Awareness Month (SAAM)

The theme **“Together We Act, United We Change”** highlights the importance of working together to address and prevent sexual abuse, assault, and harassment. This campaign focuses on enhancing public understanding of sexual violence, amplifying the voices of underserved communities, and empowering collective action to promote health equity. By aligning these efforts with broader social change and long-term strategies for community engagement, we can sustain the movement toward a future free from violence, creating environments where everyone feels safe, respected, and supported.

Sexual violence is an umbrella term that includes any type of unwanted sexual contact—including sexual assault, harassment, and abuse. Forms of sexual violence include, but are not limited to, rape or sexual assault, harassment, unwanted sexual contact/touching, sexual exploitation and trafficking, nonconsensual image sharing, and exposing one’s genitals or naked body to others without consent.

Statistics show:

- Most women and men across all sexual identities who experienced contact sexual violence reported that the person who harmed them was someone they knew.
- Over 53% of women and over 29% of men reported experiencing contact sexual violence.
- 47% of all transgender people have been sexually assaulted at some point in their lives.

This April, during Sexual Assault Awareness Month, we invite you to explore how to create safe communities where everyone feels safe and supported. We’re asking you to join in building connected communities that promote equity and respect, as our connections to one another have an impact more significant than just ourselves.

Together, we act with purpose! United, we have the power to change the world for the better.

- **April 30th, Denim Day:** Wear denim to combat victim blaming and education other about sexual violence. Why denim? In 1992 an 18-year-old Italian girl was sexually assaulted by her driving instructor. While he was initially convicted of the crime and sent to prison, the ruling was later overturned by the Italian Supreme Court because the justices felt that because the victim wore tight jeans, she must have helped remove them thereby making the act consensual.
